Querido Patchy

No hay palabras para describir la cantidad de sentimientos. Por decir algunos puede ser: gratitud, cariño, compromiso, alegría, ... en fin todo me lleva al corazón. Gracias por ayudarme a desarrollar la inteligencia que viene del corazón. Me quedo con un inmenso compromiso que sin duda me va a servir para seguir a 1,000 x hora y con toda la fuerza luchando por el cambio. Abriste la puerta y muchos la cruzamos.

Nunca había conocido a alguien tan fuerte. No me alcanzan las palabras para agradecerte pero si me alcanza el cariño para prometerte que tu lucha ahora es la mía y que tu trabajo ahora es mi guía y tu legado es mi motivo.

Gracias por la voz grave y fuerte y por todo lo que trabajaste por todos

con un inmenso cariño y siempre en la familia
Ella que te quiere

En conmemoración siempre tendremos tu casa. Tu y tu familia

Mi querido Patchy,

Aún no acabo de comprender que no estás con nosotros. Repaso mentalmente algunos de mis momentos favoritos que pasamos juntos. Me siento profundamente agradecida con la vida por haberte conocido y por haber tenido el privilegio de pasar tiempo de calidad contigo. Amigos cercanos me buscaron para darme su pésame por tu partida, sabían que había perdido a alguien muy querido, a alguien de mi familia. Tu partida me hizo recordar y valorar lo feliz que soy, pues me dió una profunda tristeza. Le dije a mis amigos "ya no me acordaba lo que era sentirse realmente triste. Tu vida y esfuerzo no fueron en vano. La motivación e inspiración que nos diste será duradera. Me comprometo contigo a seguir tu ejemplo y tu lucha.

Gracias por todo y por siempre.

Adrián

Dear Patchy,

From the bottom of my heart, I thank you for reaching out to include me in your important work. It has been a true joy as well as a privilege to take part with such a remarkable collective of ladies from several generations in understanding and innovating solutions to the sustainable development of our world. You have achieved the greatest success of any nonprofit - the sustainability of your vision! I look forward to continuing to contribute to the activities of WSDF.

Dear Patchy, we miss you but your friends are here in Durango responding to your inspiration and honouring your contribution. You can be so proud of your family for their hard work in making this forum a success.

You kept on working, kept on fighting, kept on inspiring despite illness + personal vilification. I told the conference you will be even more honoured by future generations. You are a profile in courage, who during your life on this planet made history in your efforts to save our planet. You continue, in our hearts, memories + our work.

with loving friendship.

Mi muy querido Dr. Pachauri, a pesar de que no tuve la oportunidad de conocerlo en persona, me siento muy honrado de poder conocerlo no importando que nuestra relación hubiera sido solo telefónica, sin embargo me quedo con el recuerdo de una persona amable, fina, noble y buena.

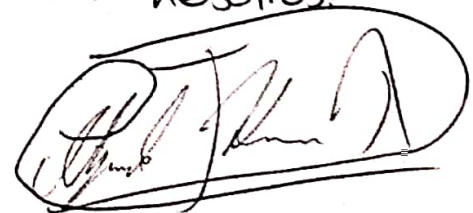

Su dedicación en el cuidado de nuestro mundo siempre nos inspirará y obligará a hacer lo que nos corresponde para combatir el cambio climático.

Estoy orgulloso de contar con la presencia de su familia en Durango pero sobretodo por su amistad y atenciones para mi y mi esposa. Siempre contarán con nosotros.

Our dear Patchy,

We spoke only days ago, you decided to pass on - like a candle, you took your breath away and soared into the limitless! We spoke about how to sustain oneself and one's mission in the midst of challenging circumstances; about persisting and developing inner strength; about Upanishadic leadership; about Oneness and human family. You offered invaluable advice to me; great contributions to the World Academy, and formidable leadership to our world - Thank you!

As a champion of humanity, you promised us that 'you will be with us all the way. We need your formidable energy under our wings to carry the mission forward. WSDF 2020 is different without you - and yet, Ash and Shonali are doing an exceptional work and carrying the torch forward. You have every reason to be proud. We have every reason to be faithful. Soar on great soul and guide us from your limitless vista now!
Mila

Dear Dr. Pachauri,

I remember meeting you when I was fourteen years old. You spoke on the issues of climate change, an issue I had very little knowledge of, and transformed it into one of my passions. You handed me your business card, and I handed over mine, and that very small action sparked a lifelong family member. Isn't it crazy, how small things can turn into something magical? That is what I now tell people, that no matter the size of the action, you can turn it into something magical. I soon met your lively son Ash, who continues to inspire me to this day. He mentioned that you had told him about Olivia and I, and without hesitation, he was just as on board as you. That, among many others, was ~~one of~~ a sign that you were real. Not in the sense that this pen I am writing with is real, but that you were so true and passionate about the work you did, that you weren't just an idea of a perfect person, you really were. You are and always will be a mentor, and family member to me. I love you Dr. Pachauri, and I know you are watching over us all, as we continue this fight. You are always with me.

Love - Carter Ries
